Earth Vital The Natural Soil Conditioner

Better market prices, longer shelf life, healthier soil

Earth Vital is a 100% research-based microbial soil conditioner that transforms vegetable cultivation through restored soil health, stronger plants, and reduced chemical dependency.

For Superior Vegetable Cultivation

Restores Soil Health

Reintroduces beneficial microbes for optimal growing conditions

Cuts Costs by 30%

Significantly reduces chemical fertilizer requirements

Boosts Yield by 20-30%

Increases marketable vegetable production

Saves Water

Enhances soil moisture retention for drought resistance

Scientifically Validated Performance

Enhanced Germination & Early Growth

Faster establishment and stronger plants

Superior Root Development

Better nutrient uptake and water efficiency

Natural Disease Resistance

Reduced pathogen pressure without chemicals

Improved Crop Quality

Better taste, appearance, and nutritional value

Extended Harvest Periods

Longer productive cycles with sustained quality

The Vegetable Grower's Advantage

+91 782 954 0073

Parameter	Chemical Fertilizers	Earth Vital
Soil Fertility	Degrades over time	Improves continuously
Disease Resistance	Chemical-dependent	Naturally enhanced
Water Efficiency	Poor retention	30-40% better utilization
Vegetable Quality	Inconsistent	Consistently superior
Input Costs	High recurring expense	30% reduction

Benefits For Vegetable Crops

-  **Enhanced Flowering & Fruit Set**
Prevents blossom drop and improves pollination
-  **Superior Root Development**
Better nutrient uptake and plant stability
-  **Natural Disease Resistance**
Reduced pathogen pressure without chemicals
-  **Improved Quality & Shelf Life**
Better taste, appearance, and post-harvest durability
-  **Extended Harvest Periods**
Longer productive cycles with sustained quality

Scientifically Validated Application

Apply Earth Vital at 5% concentration (10ml/kg of compost) during:

-  Seed/seedling preparation
-  Transplanting
-  Early vegetative growth
-  Pre-flowering stage

100% Made In India Innovation

Better quality, higher yields, improved soil
Earth Vital represents the best of Indian agricultural innovation—a sustainable solution for vegetable farmers looking to improve yields while reducing chemical dependency.

Vegetable Specific Benefits

- Enhanced vine vigor and extended harvesting period
- Superior fruit quality with better shelf life

- Improved nodulation for better nitrogen fixation
- Enhanced pod development and market value

- Increased fruit set with reduced flower drop
- Improved capsaicin levels and disease resistance

- Higher brix levels and superior flavor profile
- Better calcium utilization preventing blossom end rot

- Enhanced natural resistance to fruit and shoot borers
- Improved fruit glossiness, firmness, and shelf life
